PRIOR SIMILAR SYMPTOMS

Yes No Did you have any physical complaints just before the accident? If yes, describe in detail:

Yes No Prior to this accident, have you ever had similar symptoms? If yes, please explain:

Yes No Have you had any prior symptoms, injuries, accidents, diseases, or treatment to the area of your body now affected? If yes, which body part? When (date)? Describe:

Yes No Do you have any congenital (birth) factors that relate to this problem? If yes, please describe:

ACCIDENT INFORMATION

Date of accident:	Time of day: <input type="checkbox"/> AM <input type="checkbox"/> PM
Who was driving vehicle?	Where were you seated?
Vehicle owner:	Year/Model of vehicle:
Describe the damage to the vehicle you were in:	Where did the accident occur?

Were internal parts of the vehicle broken? No Yes. If yes, describe:

Your vehicle: Hit another vehicle Was hit in the: Right side Left side Rear Front

Type of accident: Head-on collision Broad-side collision Rear-end collision Front-impact (rear-ended vehicle in front of you) Single-vehicle collision Other:

Number of vehicles involved: 1 2 3 4 5 + Year/Model of other vehicle(s):

How many people were in the vehicle?

What were road conditions at the time? Icy Rainy Wet Clear Dark

What was the visibility at the time? Poor Fair Good

In your own words, describe what happened to you upon impact:

Yes No Did you see the accident coming?

Yes No Did you brace for impact?

Yes No Did you have your hands on the steering wheel at impact?

Yes No Were you wearing glasses, a hat, or dentures? If yes, where were they after impact?

Yes No Were you wearing a seatbelt? Yes No Were you wearing a shoulder harness?

Yes No Does your vehicle have airbags? If yes, did they release?

ACCIDENT INFORMATION CONT'D

Yes No Does your vehicle have headrests? If yes, what was the position of the headrest compared to your head after the accident?

What was your head position at the time of the accident? Facing forward Turned right Turned left

What was your body position at the time of the accident? Facing forward Turned right Turned left

Yes No Was your vehicle braking?

Yes No Was your vehicle moving at the time of the accident? If yes, Slowing down Speeding up Constant speed

What was the speed limit on the road you were traveling?

ACCIDENT INJURIES

Yes No Did you receive any bruises from the seatbelts? If yes, where?

Yes No Did you receive any other bruises? If yes, where?

Yes No Did you receive any bleeding cuts? If yes, where?

Yes No Did your head/body hit any parts of the interior of the vehicle? If yes, which parts?

Yes No Were you able to get out of the vehicle unattended? If no, why not?

Yes No Could you move all parts of your body? If no, describe:

As a result of the accident, were you: Rendered unconscious Dazed, the situation was vague Shaken up, but could function

Were you in the vehicle prior to the accident? Yes No

Were you in the vehicle after the accident? Yes No If no, describe:

FIRST DOCTOR / HOSPITAL / CLINIC Did you seek medical attention after the accident? No Yes

If yes, how did you get there? Ambulance Police Someone else drove me Drove myself

Doctor / Hospital / Clinic:

Date of first visit:

| Date of last visit:

Were you examined? No Yes

Were X-rays taken? No Yes

What diagnosis were you given?

Were you treated? No Yes If yes, describe:

What benefits did you receive from the treatment?

Did you follow the doctor's recommendations? No Yes If no, why not?

Were you referred to another provider? No Yes If yes, to whom? for what?

Did you see the referred provider? No Yes If no, why not?

SECOND DOCTOR / HOSPITAL / CLINIC

Doctor / Hospital / Clinic:

Date of first visit:

| Date of last visit:

Were you examined? No Yes

Were X-rays taken? No Yes

Were you treated? No Yes If yes, describe:

What benefits did you receive from the treatment?

SOCIAL HEALTH HISTORY

Recreational Activities / Hobbies:

Do You Exercise? No Yes If Yes, in what way?

How often per week?

Do you consume Caffeine (Coffee, Tea, Soda, Energy Drinks)? No Yes If Yes, how much per day?

Do you consume Alcohol (Beer, Wine, Mixed Drinks)? No Yes If Yes, how much per week?

Smoking Status (If 13 years old or older): Never Former (___ Packs/day or ___ Cigarettes/day from Age ___ to Age ___)
 Smoker—Some days (NOT daily) Smoker—Daily (___ Packs/day or ___ Cigarettes/day for ___ Years)

MEDICAL HISTORY Have you ever seen a chiropractor? No Yes If Yes, Doctor:

INFORMED CONSENT

While chiropractic care is remarkably safe, like any health care treatment, it does have some risks. It is your right as a patient to be informed of the potential risks of care so that you are fully informed in consenting to treatment.

The nature of the chiropractic adjustment - The primary treatment used by Doctors of Chiropractic is called spinal manipulative therapy. Your doctor may use his/her hands or a mechanical instrument upon your body in such a way as to move your joints. This may cause an audible “pop” or “click,” much as you have experienced when you “crack” your knuckles. You may feel a sense of movement.

Analysis / Examination / Treatment - As a part of the analysis, examination, and treatment, a variety of tests and therapies may be used in your care including: spinal manipulative therapy, range of motion testing, muscle strength testing, ultrasound, radiographic studies (x-rays), palpation, orthopedic testing, postural analysis, basic neurological testing, hot/cold therapy, vital signs, EMS, ultrasound, spinal decompression therapy, and/or high intensity laser therapy.

The material risks inherent in chiropractic adjustment - As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. Your doctor will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to our attention, it is your responsibility to inform the doctor.

The probability of those risks occurring - Fractures are rare occurrences and generally result from some underlying weakness of the bone which your doctor will check for during the taking of your history and during examination and x-ray. Stroke has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur between one in one million and one in five million cervical adjustments. *Statistically speaking, the risk of stroke from unknown causes in the general population actually exceeds the risk of stroke following a chiropractic adjustment.* The other complications are also generally described as rare.

Results - As with any health care option, we cannot guarantee any particular results from our chiropractic treatment. If during the course of care, we encounter non-chiropractic or unusual findings, we will advise you of those findings and recommend that you seek the services of another qualified health care provider.

The availability and nature of other treatment options - Other treatment options for your condition may include: self-administered, over-the-counter analgesics and rest; medical care and prescription drugs such as anti-inflammatory, muscle relaxants and pain-killers; hospitalization; surgery. There are risks and benefits with each of these options, and you may wish to discuss these risks and benefits with your primary medical physician.

The risks and dangers attendant to remaining untreated - Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time, this process may complicate treatment making it more difficult and less effective the longer it is postponed.

❖ **PREGNANCY RELEASE** – This is to certify that, to the best of my knowledge, I am not pregnant. I give my permission to perform x-ray evaluation with the understanding that x-ray can be hazardous to an unborn child.

(Patient Initials)

Having carefully read the above, I hereby give my informed consent to have the doctors of Innovative Health administer chiropractic care.
